Work Experience

| | | |
|----------------------|-----------|----------------------|
| Full Stack Developer | Radixlink | June, 2024 - present |
|----------------------|-----------|----------------------|

- **Developed and implemented a role-based access control (RBAC) system** with API endpoints for user account management. Enabled **dynamic role assignments**, precise permission control, and **user authentication with two-factor authentication (2FA)**.
- Designed **secure API endpoints** for timesheet management with **data serialization and validation**. Ensured robust error handling for enhanced reliability and security.
- Enhanced web application functionality with **real-time communication using Django Channels**. Optimized web serving through **Nginx configuration**.
- Integrated payment gateways like **Stripe and Cashfree** to facilitate seamless transactions. Ensured **secure and efficient payment processing** for users.
- Ensured **data integrity using Django's ORM** and transaction management. Streamlined development processes through **CI/CD pipelines** for continuous integration and delivery.

| | | |
|----------------------|------------|----------------------------|
| Full Stack Developer | Springreen | November, 2023 - May, 2024 |
|----------------------|------------|----------------------------|

- **Spearheaded backend development using Django**, constructing robust APIs with **Django Rest Framework (DRF)**. Integrated **PostgreSQL for optimal data management** and enhanced user experience through front-end design.
- Implemented **CI/CD pipelines for streamlined development**. Utilized **Docker and Kubernetes for scalable containerization and orchestration**, and deployed **cloud-based solutions on AWS** for optimized performance and reliability.
- Configured **Nginx for efficient content delivery**. Secured authentication with **django-allauth** and enabled **real-time communication using Django Channels**.
- Integrated **payment gateways like Stripe and Cashfree** for seamless transactions. Ensured secure and efficient payment processing for users.
- Enhanced **dynamic interactions and user experience with JavaScript**, ensuring seamless **frontend-backend communication**.

Education

| | |
|-----------------------------------|--------------------|
| Bundelkhand University | 2021 - 2024 |
| Bachelor of Computer Applications | Web Development |
| Government Inter College | 2020 - 2021 |
| Intermediate Education in Science | Maths |

Skills

-
- **Programming Languages:** Python, SQL, Shell, HTML/CSS/JavaScript, TypeScript
 - **Framework:** Django, Flask, Django Rest Framework, FastAPI, Tailwind CSS, React
 - **Databases:** PostgreSQL, MySQL, Cassandra, MongoDB, Redis
 - **Tools:** Git, Linux, Nginx, Docker, Kubernetes, AWS, Maven, JWT, CI/CD, Terraform, Ansible, Monit
